

EB-Z11000W

DATASHEET

Featuring an impressive 11,000 lumens, WXGA resolution and 3LCD technology, the EB-Z11000W is ideal for large venues and simple to set up.

With 11,000 lumens brightness and WXGA resolution, the white EB-Z11000W is an impressive and versatile installation projector. Able to project portrait aspect images for digital signage, the EB-Z11000W has a flexible installation angle, lens shift for off-centre positioning and plenty of calibration options, with optional Wi-Fi and HDBaseT connectivity.

Clear images and 3LCD technology

The 11,000-lumen EB-Z11000W is an ultra-bright WXGA-resolution projector, benefiting from Epson's 3LCD technology, which ensures high-quality images with equally high White and Colour Light Output for vivid colours and bright images, even in daylight, and three times brighter colours than competitive projectors¹.

Perfect for large venues

Museums, auditoriums and corporate environments can benefit from the EB-Z11000W's large projected image, ideal for making a big impact.

Portrait projection

Able to project portrait aspect images, the EB-Z11000W is ideal for digital signage. Welcome to a whole new way of seeing things; portrait mode is also useful when a venue or event, such a fashion show, doesn't lend itself to landscape projection.

Easy set-up

As well as a flexible installation angle and lens shift for off-centre positioning, the EB-Z11000W includes plenty of calibration options such as edge blending, test patterns and Epson's Super Resolution feature.

Connectivity

The EB-Z11000W includes HDBaseT, which allows up to five connections in one. Optional Wi-Fi is also included for extra flexibility.

Short-throw capability

Great news for auditoriums and lecture theatres; a new and exclusive LU02 short throw lens allows this projector to be positioned closer to the screen.
