

# TPUH412RA

TPUH412RA is an ultra-thin HDBaseT Receiver designed with three audio de-embedded outputs including Optical, Coaxial and Stereo. It receives 4K/1080P HDMI signal via CATx cable from HDBaseT transmitter or matrix switcher at 40m/70m.

- HDBaseT integrated on output to transmit 4K UHD 131ft/40m and 1080P 230ft/70m.
- HDCP 2.2 compliant.
- Two-way PoH.
- Multi-format audio de-embedded from HDMI Output in Optical, Coaxial and Stereo.
- IR & RS232 pass through.
- Ultra-thin aluminum chassis.
