Rec. 709

Rec. 709 is a standard of HDTV. It is also the color standard that movie director adopted for post-production. Thanks to the inclusion of Rec 709, Acer's projector is able to reproduce faithfully the original colors and tones to give viewers an authentic movie-watching experience. Recreate colors exactly as they've been imagined by the director.

ISFccc

ISFccc (Certified Calibration Controls) enables projector to deliver the best of its quality in different environment. ISF-qualified technician¹ calibrates and optimizes the projection based on the environments projector will be living in. Two new modes (ISF Day/ ISF Night mode) will be shown after calibration.

¹ The calibration is charged by ISF certified calibrator. Acer is
