

XD-V75 Digital Wireless

Professional 24-bit Digital Wireless Systems

The Line 6 XD-V75 series of digital wireless handheld, lavalier, headset and bodypack systems sets new standards in versatility, reliability, ease of use and superior audio quality for vocalists, active performers and spoken word presenters.

With exclusive, onboard modeling technology, XD-V75 series systems offer supreme sonic flexibility. The XD-V75 handheld system gives you the flexibility to choose from 10 superb microphone models, so you can be confident you've got the right microphone sound to match your voice—and your performance. Microphone models are based on* the Shure® SM58®, Shure® Beta 58A, Sennheiser® e® 835, Audio-Technica® AE4100, Electro-Voice® N/D767a and more. XD-V75L, XD-V75HS and XD-V75T bodypack systems give you the flexibility to choose from six vocal and three instrument EQ filter models, so you can optimize the sound of the system for your voice or instrument, and deliver your performance with maximum clarity and impact.

All 14-channel XD-V75 series systems feature patented, fourthgeneration Line 6 digital wireless technology for full-range, 10Hz–20kHz (-2.5dB) frequency response and wide dynamic range up to 120dBA. In addition, proprietary Digital Channel Lock (DCL[™]) technology prevents audio interference from other 2.4GHz devices, and ensures signal integrity.

To ensure reliability and peace of mind, XD-V75 systems operate in the 2.4GHz ISM band, which is free from interference due to TV broadcasts, white space devices, cell phone towers and other transmitting devices. The systems are fully FCC compliant and operate license-free worldwide, from Hollywood to Tokyo.

XD-V75L Digital Wireless Lavalier Mic System

- Powerful microphone and EQ filter modeling technologies
- 24-bit/10Hz–20kHz, compander-free vocal reproduction
- Patented, 4th-generation digital wireless platform
- One-step setup, with a full complement of pro features under the hood

XD-V75 Digital Wireless Handheld Mic System

XD-V75HS Digital Wireless Headset Mic System

XD-V75TR Digital Wireless Beltpack System

STAGE. YOUR REVOLUTION.

FEATURES

• The XD-V75 handheld system features exclusive microphone modeling technology to give vocalists a choice of 10 superb microphone models based on* the world's most popular mics, including:

- Shure® SM58®
- Shure® Beta 58A
- Shure® SM57
- Sennheiser® e® 835
- Sennheiser® e® 935
- AKG® D5
- Audio Technica® AE4100
- Audix® OM5
- Electro-Voice® N/D767a
- Line 6 custom-voiced microphone
- XD-V75L, HS and TR systems feature exclusive EQ filter modeling technology that optimizes the system to your voice or instrument choose from 9 distinct EQ filter model types (6 optimized for vocals, 3 for instruments)
- Accurate and precise vocal reproduction with full-range 10Hz–20kHz (-2.5dB) frequency response, up to 120dBA dynamic range, superior transient response and 24-bit digital conversion
- 2.4GHz band operation, free from interference due to TV broadcast, white space devices and cell phone towers
- License-free operation worldwide
- Patented, 4th-generation digital wireless technology surpasses analog wireless systems in wireless reliability and sound quality
- Premium dynamic microphone capsule (XD-V75), cardioid condenser microphone (XD-V75L) or omni-directional condenser capsule (XD-V75HS, available in black or tan) designed for spectacular vocal reproduction
- 14 always-available channels
- 300-foot (100-meter) extended range
- Large LCD screen on receiver shows channel setting, model selection, battery status and more
- Signal encryption for maximum signal privacy and integrity
- Dynamic Filter to combat unwanted environment noise (XD-V75)
- Channel scanning for best RF management in multi-system applications
- 2 powered BNC antenna inputs for daisy chaining multiple systems
- Road-ready transmitter and receiver chassis
- FCC compliant; immune to the FCC Consumer Alert regarding wireless microphones
- Systems include transmitter, 1/2U receiver, 2 x 1/2 wave antennas, front-mount antenna kit, rackmount kit and two AA alkaline batteries
