NEC PA722X

Order Code: 60003446

NEC Professional Installation Projector

Delivering many unique features, NEC's new PA Series is the world's first projector range to offer a 4K interface for multi-screen display capability. Outstanding picture quality is guaranteed with NEC's 3rd generation Sweetvision®, high brightness levels and NEC's unique scaler chip.

The new PA722X offers rich connectivity with a wide range of inputs and unrivalled installation capability making it ideal for corporates, higher education, museums and signage applications in large rooms and auditoriums.

BENEFITS

Perfect Image quality - high brightness, up to 4K input signal and unique picture and colour processing technology based on the latest NEC scaler chip achieves outstanding picture quality.

Easy way to a big picture - up to 4K interface, HDMI-out signal loop through, built-in signal splitter and edge blending capability enables large presentation pictures without any external devices. PiP function allows additional sources to be displayed.

Easy installation - selection of wide zoom bayonet lenses, wide vertical and horizontal lens shift and control code emulation guarantees hassle-free installation and replacement of old installation projectors.

Widest application support - portrait mode projection, 360 degree free tilt installation, unique geometric adjustment and 3D support offers unrivalled installation capability.

Very low cost of ownership - long lamp life of up to 4000 hours, inorganic long life panels, maintenance free filters and standby power of just 0.15W.

Rich connectivity - including HDBaseT, the world's first HDMI-out interface, 2xHDMI and DisplayPort technology guarantees outstanding connectivity.

Free Download of Multi-Display Management Software - with NaViSet Administrator 2 you can manage all your connected display devices from a centralized location.
